ATTENTION, BREEDERS !!**FEDERAL REGULATIONS FOR RARE BREEDS --**

ABC has received a number of copies of an article regarding Federal regulations on rare breeds, and the manner in which the U.S.D.A. is now evaluating rare breeds, our Bashkir Curlies could be included. The regulations could impose yearly vet checks, record keeping, tattooing, filing fees, permits, photographs and transportation regulations, and permit access of U.S.D.A. personnel at any time to your property and who could determine basic requirements.

It is suggested that horse owners contact their Representatives and Senators to learn more about this and voice their feelings. Also, there is a group in Los Angeles that may be able to help. It is:

ANIMALS' VOICE
 PH: 1-800-82-VOICE

It just might pay to put in a free phone call to them to see if they can help. The contact person is Randy Ralston.

Don't PANIC! Contact your Representative or Senator, or both, or call the above number, but don't delay!

CONVENTION --

Co-Chairmen for this year's ABC Convention are Glenn Terry & Dan Mitchell of McGill, NV, who will assure a good time to all who attend. THANKS, you two!

ABC Life Member and Curly Owner Michelle Moss (left) of Wasilla AK, vacationed in Australia, and while there had the opportunity to visit with ABC's one and only member there, Susan Pfeiffer (right) of Goolwa, who has been with ABC for 12 years. Tho' Susan hasn't seen a Curly in person, she is an excellent horse-woman and shows jumpers, so the two probably did a lot of talking about horses. Michelle is also an agent for Australian Stock Saddles in Alaska, one of her reasons for the trip "down under".

Rachelle Scott, Age 9 (top) and Adrienne Scott, Age 7 (btm), daughter of Kevin and Nancy Scott, Curly breeders of Rayville MO, shown with the trophies and ribbons they have won on the family's Curly gelding, Travelin' on Sam ABC-272. They did so well on Sam this past year that the girls intend to show again this year. Good luck from ABC! Luv those blues!

WEAVING CURLY HAIR --

This interesting display by Virginia Terry, of McGill Nv, at ABC's Convention, shows the beautiful stole she made from the hair of her and her husband, Glen's, Curly horses.

So, remember to save that hair in the Spring when your Curlies start shedding all that hair. Somebody can use it to make articles of clothing, and we are certain that we have the only breed that has hair that can be used this way. Interesting!

And, in Pennsylvania, young Jessica Confer of Pittsfield, really campaigned on her Curly Mare, Jessie's Miss Fancee ABC-976, piling up points to become ABC's Reserve Champion Youth for 1990. We do hope she continues to show this coming year as Miss Fancee is really winning for her. Congratulations, Jessica!

ABC is happy that more and more boys and girls are starting to show their Curlies at shows and in 4-H. It's great!

SOMETHING IS MISSING !! --

Yes, something is missing in this newsletter -- the listing of NEW REGISTRATIONS for both Curly and Straight horses. We just received so many new registrations at the end of the year -- bless you all for it -- that we just don't have room to list them. The numbers went from 1191 to 1385 on new registrations for Curlies, while applications for Straights jumped from 211 to 284! This made a total of 267 certificates to process. When you compare this to the 120 registrations we received for the first 8 years of the Registry, perhaps you can understand why we have fallen behind. Upon returning from the Rose Parade, found practically a bathtub full of mail stacked up, and felt like hopping right back in the pickup and going on down the road for Lord knows where, but realized that just wouldn't solve the problem, so just had to stay and face it. Needless to say we have all been working overtime trying to get caught up. We are still behind, but catching up, so don't let that stop you from registering your new babies!

All Curlies from #751 up, and all Straights from #86 up will be listed in a new Stud Book to be printed next year. In the meantime, we do have them listed since we thought we just might have room enough for them in Curly Cues, so if you are interested in the list, send \$1 to ABC and we can send it to you.

And -- THANK YOU for being PATIENT !!!

FIRST CURLY GET-TOGETHER IN CANADA --

Judy Power & Richard Hendrix, Curly breeders of Drayton Valley, Alberta, spearheaded the first Curly Fun Days to be held in Canada and hope it will be annual affair. 32 people attended the event, talked Curlies, and enjoyed a Bar-B-Q Steak Supper & Cowboy Breakfast. Joe & Corine Mead of Sequim WA joined the group with Corine showing some of the vests, caps, etc., she had made from Curly horse hair, and Joe helped explain some of the horses on the slide show sent from ABC. ABC's Canadian membership is growing fast -- and Thanks Much!

COWBOY CONCERT COMES TO ELY --

Don Edwards, premier Cowboy Balladeer, who hails from Weatherford TX, recently held one of his "Cowboy Concerts" at Ely, sponsored jointly by ABC and the White Pine Cowbells. What a great night of entertainment, hearing the old cowboy ballads the way they used to be sung, and we so appreciate his dedication to preserving these old songs. His beautiful baritone voice and easy style (sans electronic equipment) is so refreshing, and we are happy to hear that his album "Desert Nights and Cowboy Blues" was voted the No. 1 Cowboy and Western Album of the year! Congratulations, Don! You have done so much to help Western music make a comeback! And, THANK YOU, for such a great performance at Ely! What memories it brought back! Do come again!

TRANSFERS --

In checking back on the records, it was found there was a total of 27 Curlies transferred in the first 9 years after the Registry was started, making an average of 3 per year! In the past 6 months we have listed 88 transfers! So, our Curlies are moving, as that is more than were listed for sale in the last newsletter. And, folks are telling us that they are getting more inquiries this year than last, so we should have a banner year! Great!

We get wonderful letters and calls from folks who have purchased their first Curly and are amazed at their gentleness and intelligence and just have to talk about them. One drawback to owning Curlies -- phone bills! Can't blame them for wanting to talk about their Curlies. So, keep on phoning. Luv to hear your stories!

KOUMISS --

KOUMISS is a fermented drink made from mare's milk, much used in Bashkiria as the mares give so much milk. If anyone is interested in trying to make Koumiss, ABC has several recipes on file that we would be happy to send to you. We haven't tried it yet, but hope it's M-M-M-GOOD!

ARIZONA --

We hope everyone read the excellent article about Bazy Tankersley of Tucson AZ in Equus. Bazy is the owner of Al-Marah Arabian Farm, with a 320-horse herd representing the world's oldest privately owned, continuously bred group of Arabians. Congratulations, Bazy! We're so proud of you -- and proud that you are now an ABC Member/Breeder and that you now own a few Curlies, too! Good luck with them!

MONTANA --

Member Nancy Oesau has moved from Montgomery MN to Victor MT. Her Curlies moved with her! We're glad she's closer now!

John and Joanne Schneider of Willow Creek MT again have offered \$100 added money to our Curly Trail Class at the Horse Show. We truly appreciate their generosity, as they don't even own a Curly! THANKS, MUCH!

SANS OF TIME ABC-632 & JIM SAMPSON --

The Sampsons of Nova Scotia, Canada, wrote to say that they have retired their great little Curly gelding, Sans of Time ABC-632, from active competition. We were so sorry to hear this as "San" has a record that we believe no other horse of any other breed can match. Joey was 13 years old when she bought this strange sorrel gelding from a sale yard. She trained him herself, and his intelligence amazed her. She got him primarily for 4-H, but entered him in an open show put on by the Arabian Club in her area, where she entered San in 10 events, both English & Western, winning 9 firsts and 1 second -- absolute perfection! All against other breeds in open classes! Unbelievable!

Then tragedy struck! In a pile-up of horses running in a slick wet grassy field, San was badly hurt, with a bone chip in his shoulder and one leg almost ruined, so much so that the vet advised putting him down, saying he would never walk again. How heartbreaking! But the Sampsons, Jim, Lily & Joey, explained that San was a Curly and would make it. With an operation and months of TLC, San was finally able to walk again. Feeling it would be easier on his shoulder, Joey started San in harness and he took to it like a duck takes to water. So, she took him to the Arabian Club open show again, entering him in 13 events -- English, Western and Harness. Result: 10 firsts, 2 seconds and 1 fifth place! Again, perfection -- and from a horse that was never supposed to walk again! Next, she entered San in a Reining competition, winning a Grand Championship to add to the "Grands" they already had in English, Western & Harness! We wouldn't have room enough in this newsletter to list all of the honors Joey and San have received.

They're gonna miss this outstanding pair in the show rings in Nova Scotia, but will probably also heave a sigh of relief as the rest of them can now get some blues! So, let's all doff our Stetsons to this incomparable pair who have done so much to prove the ability of Curlies! WOW!

THE BASHKIR HORSE OF ASIA - or

"Crisp Haired Horse" --

ABC was so excited to receive this information on the Bashkir Horse of Asia from ABC member Sandra Hendrickson of Indianapolis IN, and we hope it proves once and for all there are curly-coated Bashkirs in Russia.

Sandra's friend, Ellen Wells, of the Smithsonian Institute in Washington DC, found this article about the horses in "The Natural History of Horses" by Lt. Col. Chas. Hamilton Smith, printed in Edinburgh in 1841.

In a chapter regarding "Black Stock" Smith notes the following: "Among the present races in Asia, we find the Bashkirs possess one of a slaty black colour, with tanned muzzle and inside of the limbs; the hair does not grow to the length of the white villous races, but undulates with an indication of curling.

They were clearly of the same race as the specimen from the stables of the Emperor of Austria, where the groom said it was a cross between a Bashkir and a French Black. ... We attach no great importance to the character of the hair, having ourselves possessed a powerful roan with a similar coat, said to have come from the mountains above the Magdalena".

THANK YOU! THANK YOU! - ELLEN and SANDY!!
