PRESIDENT'S MESSAGE

July 2020

Dear Fellow Members,

I am so sad we could not have the Curly Convention this year in Reno! I was so looking forward to seeing all of my Curly friends and fellow breeders. Let's make sure to plan on a 2021 convention that will have everyone saving up for and coming to Reno!!

It sure seems like people are having a hard time finding a well-trained older Curly horse in the horse market today. Or even a well-bred younger Curly horse. Most people after finding such a Curly will keep it forever. That's where all of our Registered Breeders come into play. They are very conscientious about their breeding programs and will not sell a horse to a buyer that is unaware of ownership responsibilities. Usually when our phone rings with inquiries about For Sale horses, and the caller wants to come and see we will always suggest taking lessons first if they are green and want to own a horse.

American Bashkir Registered Curly Breeders are always listed in this publication and also on the website. Most like to brag about their Curlies, so if you are looking and want some information, they will gladly tell you about their horses.

Summer is in full bloom here in Reno with highs in the 90's. We are starting our fly season and are taking precautions with full face masks that also help with the sun's rays. With some horses we will bring them in during the day and put those out at night which can be beneficial with sun bleached or sunburned coats.

The Registry will be holding a Convention Conference call to make up for the missed Reno convention. It will be held on the weekend of the 2020 Convention planned July dates. Please contact the ABC office or your District Representative for information on attending this call.

CURLY CUES

CURLY COAT GENES

The Cook gene is another rare, unidentified gene. They also do not have KRT25 or SP6, yet show the curly coat. There are some out there, but tests still need to be done to identify their curly gene, and how it works. Cook was a neighbor of Damele's, so it is possible horses of the Damele lines could have the unknown Cook gene.

Listed below are horses who may have the Cook gene. If you have, or know of someone who has a horse listed, or a progeny from it, please ask them to contact Dr. Wilkinson, and get hair to him, for testing. The list is below, as well as contact information. If the horse is on this list, Dr. Wilkinson will pay for the testing. If not, the owner will have to pay for the testing.

Ravishing Beauty ABC#?????

Sire-Houdini ABC# 468

Kara Mia ABC# 1171

Ne-Hi Majic ABC# 1172 (hair sample tested)-but need blood if it was ever taken

Gemstar Majic ABC# 1161

Magie Rainmaker ABC# 1232

Copper Majic ABC# 1162

Kodiak Majic ABC# 2260 (waiting on blood from Austria, already have hair sample tested).

There are other curly horses in the world without the KRT25, SP6, Sulphur, or Cook lines. Dr. Wilkinson and Dr. Gus Cothran are hoping to be able to eventually get samples and test them for their curly genes. Contact:
