CURLY CUES

President's Message

Fall/Winter

Dear Curly Members,

With the leaves falling from the trees and the weather getting much colder, the anticipation of winter arriving brings much apprehension. Are we ready? Do we have all the hay in? Are repairs done before it gets nasty outside? Much to do and think about, and as we get older, much harder to do. Seems like there is not a lot of time in the day to accomplish it.

A lot of folks are fearful of the future and being unable to care for their horses anymore. Horses rely on their humans for food and welfare. It is so disheartening to see the postings of abandoned horses so thin and feeble with every rib showing going to auction. Many of us cannot afford to take in some of the desperate ones, but with a small donation to the horse rescues you could help save some. With this Christmas season approaching look into your heart and send some money to these organizations that are working so hard to help Curly auction horses and Curly wild horses. Diane Mitchell, an ABC Board member for many years, runs an organization called Curly Horse Advocates, which helps with transportation costs for people who adopt rescue Curlies from auction pens. Her website is www.curlyhorseadvocates.com and there is a donation link on it where you can donate money for transportation costs.

The ABC Board held their Convention Call for the year and the minutes will be posted in this issue for review from our members. Thank You to everyone who attended,

Joan Olson

CURLY HORSE PROFILE

Lydiker, From Breeding Stallion to Trail Horse, Children's Lesson Horse and Endurance Horse

My Black Pearl

By Marion Huurman – Hidden Cave Ranch, Kentucky

Let me introduce myself first. My name is Marion Huurman, founder and owner of Hidden Cave Ranch in Kentucky.

In 2009, my husband and I made the life-changing decision to move from the Netherlands to the United States. We had a business plan, and the process involved buying property in Kentucky and selling everything we had back home.

One of the things I had always dreamed of doing was breeding horses.

I grew up in a family without horses, but I started working on a farm when I was just 11 years old. In exchange for my work, I was allowed to ride one of the horses. The farm bred Friesian horses, the beautiful black pearls of the Netherlands. That is where I learned so much about breeding horses, the do's and don'ts, and all the joy and heartbreak that come with it. As a young girl, I dreamed of breeding Friesians myself. However, I wasn't particularly happy with the direction the breed was taking.

My father suffered from severe allergies, and one day I came across an article about American Bashkir Curly horses. Interesting, I thought! Although I have to admit, at first, I thought they were rather unusual-looking horses with their curly coats.

At that time, there was only one Curly stallion in the Netherlands, and he wasn't anywhere near my home.

I started doing A LOT of research. I looked at several breeders in the United States, but I kept coming back to one breeder in Texas. Eventually, I decided to call her. We talked for hours on several occasions.

There was one black colt I kept looking at. He hadn't even been weaned yet, and he was gaited, which was something completely new to me. Technically, he had been bred in Indiana. The breeder had purchased his dam in foal, and he was born in Texas.

But there was something about that little black colt that kept drawing me back.

There was another horse I was interested in as well. He came from the Warrior line, but unfortunately, he had already been gelded. He was two years old at the time.

I decided to take a leap of faith and purchased both horses sight unseen, in a foreign country!

A New Beginning in Kentucky

Fast-forward to 2010. We moved to Kentucky, and six months later, Lydiker and Warrior Freedom arrived. My very first encounter with American Bashkir Curly horses!

Freedom was friendly, but Lydiker wanted absolutely nothing to do with me. He was shy, difficult to catch, and a little flighty. But I could understand. He wasn't even a year old, had no mother to protect him, and suddenly found himself surrounded by strange people in a strange environment.

Thankfully, things began to change as he got to know me.

He grew into a gorgeous little black stallion. In the meantime, I purchased a beautiful mare from the same breeder, and she became his first official partner. Our herd continued to grow with more mares, and Lydiker eventually sired 11 beautiful foals.

Then came another turning point.

I had my eye on another stallion prospect, and I decided it was time for Lydiker to have a career change. At seven years old, he was gelded, and his riding career began.

He turned out to be the easiest horse I have ever trained!

I always joke that it was as if he was born with a saddle on his back. Many wonderful trail rides followed.

From Trail Horse to Children's Teacher

Eventually, I started using Lydiker for guests staying at our Bed and Breakfast and for people who wanted to visit and see whether they would react to our horses because of their allergies.

Lydiker was so exceptionally good that I began trusting him with little children.

And once again, he picked it up as if he had been doing it his entire life.

Today, he is still a favorite among the children. He is an incredible teacher, whether someone is a complete beginner or a more experienced rider.

He seems to know exactly what is expected of him and adjusts himself to the person on his back. That is something truly special.

An Unexpected Endurance Horse

Then came another unexpected chapter in Lydiker's life. A lady from Missouri contacted me because she wanted to visit and see whether she would react to our horses. She had SEVERE allergies.

After her visit, she and her husband ended up purchasing four horses from me. We became very close friends. One of those horses was related to Lydiker, and she started doing endurance riding with her. Honestly, I thought, "That's never going to work! She's only 13.3 hands!"

Well, I couldn't have been more wrong. That mare had a heart and dedication to her owner that were simply incredible. Her owner, who had become a dear friend, worked incredibly hard with her. Together, they even completed a100-mile endurance ride!

She kept encouraging me to come along and ride with her. But I kept telling her that Lydiker was the only horse I had who might possibly be able to do it. My other Curlies were either too lazy, too big, or too old.

So, the conditioning began. Once again, Lydiker exceeded all my expectations. He started to enjoy the work, and before long, he was flying over the trails. After completing an introductory ride, I began to think we might be ready for a 25-mile endurance ride. I was extremely nervous, could he really do it? My friend Stephanie kept reassuring me that he was in excellent shape and condition.
And sure enough, we finished mid-pack! That was an incredible accomplishment, especially considering that I had initially been aiming for the "turtle prize."

Our next ride was even better. We finished fourth, with a wonderful veterinary report.

CURLY CUES

I couldn't have been prouder of my black boy! My Black Pearl

Today, Lydiker is 17 years old and, in my eyes, in the prime of his life.

That little black colt I once saw in a photograph with his dam has given me so much more than I could ever have imagined.

He started his life as a breeding stallion, became a wonderful trail horse, developed into a trusted children's lesson horse, and surprised me once again by becoming an endurance horse. I may do a couple more endurance rides with him if he tells me that's what he wants to do. But he will always have his place among our riding students, where he continues to be a favorite.

Looking back, I realize how much this one horse has taught me. About patience, trust, versatility, and never underestimating what a

When I first purchased him, I had no idea what kind of journey we would share, I only knew there was something special about that little black colt. And I was right! My black pearl!

ABC CONVENTION CALL MINUTES

ABCR Annual Membership Meeting-Zoom Call- October 10.2026 11:00 a.m. PSTAttendance-Shawn Tucker, Angie Gaines, Diane Mitchell, Joan Olson, Sonja Steinsiek, Tiffany Beechinor, Jim Washington, Donna Laroux, Krista Harvey, Sonja Oakes, Melinda MartinoAbsent with Notice- Sue Davis, Marion Huurman

Meeting Called to order by President, Joan Olson at 11:05 a.m. PST Joan requested Melinda Martino conduct the business meeting. Melinda agreed.

Melinda noted adding Curly Horse Advocates to the Agenda under Reports

2025 Minutes were distributed earlier in the day and shared with everyone on the call to review. There was discussion of what transpired at last year's meeting. Melinda called for the minutes to be accepted as presented. Accepted as presented.

Approval of 2025 Treasurer's report. October 2024-September 2025. Melinda explained that she had completed the 2025 with the remaining year, concluding that we had a profit of $1926.10 at years end. From October 2025-September 2026 our profit is $822.88 as opposed to $1564 from the same period as last year. The difference is the result of several things; a donation of $500+ to a Canadian Breeder who lost her hay and barn, a Registration special to capture the horses registered by the CSI, an increase in postage and DNA expenses to make the difference between this fiscal year and last of ~$700. Treasurer's report accepted as presented.

Melinda requested that the registration special be allowed to remain until the end of this calendar year. Registrations were up from 15 in 2025 to 27 at the end of September 2026. Shawn moved to allow the special to continue and was seconded by Krista. Motion carried.

REPORTS

District/At Large reports: Oral District and At-Large reports were given by Melinda, Diane, Sonja Oakes, Krista, Joan, Tiffany, Donna, Angie and Shawn. Sonja (District 8&9) mentioned some new Canadian breeders and folks looking for broke curlies. She had some recent losses, 1 with Colic and another with a cancerous tumor that left them bottle feeding 2 foals. But was delighted with several visitors who saw the sign at the end of the drive. Melinda (District 7) mentioned a KY breeder who is using a CB Appaloosa Stallion with nice results. Angie (District 4) reported that she is allowing her Curly Mustang stallion, Sparky to breed her BLM curly Mustang mares and looking forward to next year. Tiffany (At-Large) expressed a desire to locate a registered curly mare to start a small breeding program.

CURLY CUES

Diane (District 3) said she has a woman in her district who is breeding for curly mules. Krista (District 2) talked about losing her Curly Mustang mare Sassy who brought more than 4500 people to her personal Facebook page. Krista discussed a second hores, Karma who is from the COOK Curly line and working with Dr. Mitch Wilkerson to find a suitable stallion to continue the line. Krista has also had multiple visitors. She has been mentoring a woman named Barbara from a Chicago rescue that is caring for several curly horses. One was in very poor shape and seemed to have some skin issues but is doing much better with good nutrition. She has given her information on the ABCR and ICHO. With hopes they will follow up after the genetic testing done at University of Kentucky. Melinda reminded her that the genetic markers needed to register the curlies is not automatically done with the hair gene tests. Donna (AT-Large) said everything was quiet in Louisiana. Shawn (District 5) said everything quiet there as well. She spoke about a buyer who she sold 3 horses too prior to leaving for Belize. He also has rescued some mares and appears to have bred multiple animals. Melinda confirmed that she has recently registered 3 horses who identified the sire as one of his stallions. Shawn shared that the stallion she sold to him has recently passed.

Melinda asked Sonja Steinsiek how things were in Germany. Sonja identified her region as Northern Westfalen. That she is not a breeder but has contact with Daniela Soenchen. And rides for pleasure.

Melinda Identified Jim Washington who joined. She introduced him as Tiffany's dad and as a Past President of the ABCR. Jim was unable to comment. Tiffany said her son was riding and doing trail trials and doing well. Everyone encouraged her to keep him riding.

Bylaws: Melinda reminded everyone that the bylaws require a 2/3 vote of the membership who return their ballot to pass any change.

Joan as bylaw chairman asked for the following changes: Article 3; Meetings. Section Regular meetings. Joan suggested that rather than b. The ANNUAL CONVENTION Of THE REGISTRY shall BE HELD EVERY OTHER YEAR be changed to The Annual Convention of the Registry shall be held IN PERSON WHEN POSSIBLE OR BY ANY ELECTRONIC MEANS. Discussion surrounding the word Convention vs Meeting. Those in attendance agreed that Meeting was a more descriptive term. Motion to change the word Convention to Meeting for this change and throughout the document was made by Diane and seconded by Angie. Motion carried. The new Section 1b. The Annual Meeting of the Registry shall be held in person when possible or by any electronic means available. Motion to accept with changes CARRIED. Diane moved that in the next sentence we strike BY MAIL and replace to say; Written notice stating the place..., shall be given by electronic means at least 30 days prior... Seconded by Angie. Motion Carried.

Upon further review of Section 1a. Angie moved to strike the next sentence; The Notice shall be mailed to each member... Diane Seconded the motion. Motion Carried.

The new Article III, Section 1b now reads, The Annual Meeting of the Registry shall be held in person when possible or by any electronic means. Written notice stating the place, day, and hour of the meeting shall be given by electronic means at least 30 days prior to the date of the meeting.

The next change is Article IV; Board of Trustees; Section 6-last sentence-The Executive Committee will act in accordance with Article VII of the Bylaws and Rules & Regulations, Section 1. Melinda explained that at some point an earlier change did not correct the reference from Article VII to Article VIII, Officers and Duties, Section 2. There was no further discussion. Motion Carried. The new Article IV, Section 6 now reads, the executive Committee of the Board of Trustees will consist of the President, Vice-President and the Secretary. Their purpose, as directed by the Board of Trustees, will be running the general business of the Registry. The Executive Committee will act in accordance with Article VIII, Officers and Duties.

Section 2.

Membership

70 Members, 42 Adult and 23 Breeders, 5 Active Life members

Melinda reported that the contact information for Life members was rarely updated. She asked that anyone with knowledge of changes for anyone identified as a Life member be sent to the office.

Hall of Fame

Donna was recently sent a nomination for consideration of Angie's stallion Chester from Mitch Wilkerson. Donna reviewed the information along with additional information provided by Angie and basically Chester did not meet the criteria for a Breeding member of the Hall of Fame.

Donna indicated that the Breed Registry has changed and believes that a new category should be added to promote the activities of Breed Promotion/Ambassadorship that would recognize the contribution of the horse and handler or horse and rider. The folks that put themselves out in the public in Parades & horse fairs, etc. or take the opportunity to educate the public on our horses. Donna will write it up and present it to the Board of Trustees for comment. Once agreed upon, it will be added to the website with the other nomination forms.

With no further discussion, The Motion to add a new Promotion or Ambassador category to the Hall of Fame, Carried.

CURLY CUES

OLD BUSINESS

· Curly Coat studbook changes were implemented. Certificates were updated for 4 horses for Kentucky Breeder.

· The fee changes to transfer multiple breeder horses was implemented in 2026 budget and updated on website.

· The Online Store has been created. It key chains etc. T-shirts stored at the office were given to Emily and Elana Oakes to use in creative designs for possible fund raisers. The store is linked to our accounts. Funds are split between the creator, Printify, and the seller (us). Funds are automatically forwarded to our bank account once a month. Other than the purchase I made to test the site, there has been no additional items sold. Shawn suggested that the link be more pronounced by adding a picture or two.

· Breed Standards and Characteristic updates have been updated on the Website. If errors are found, please contact Joan to correct. Melinda will send corrections to the Rules and Regulations to Joan with the updates to the Bylaws.

Curly Horse Advocates-Diane Mitchell

Diane reported that she only had 2 requests for support this year. One to Tanisha Bennett who rescued horses from a kill pen and the other to Shelly White who lost her winter hay supply in a fire. Diane reported a huge donation this year and expressed some concern that it was getting harder to secure donations. She is attempting a raffle in the month of October of donated and purchased items and has had no response just advertising it on Facebook. She did send information to Joan for the new website. Joan is in the process of compiling several items that she can add with the help of Go Daddy Tech support. Diane also reported a curly mare, possibly pregnant in the kill pen in Stroud OK. And offered assistance for fuel or quarantine from CHA. Melinda asked for more information on how to find horses that have been sent to Kill pens. Diane sees it on Facebook on Curly horse lovers and others. Sometimes she is contacted by concerned folks. Diane went on to explain that the horses are moved from auction to auction until sold. Horses that do not sell end in a Kill pen where they are made available for a period before being sent to slaughter.

NEW BUSINESS

Website-Melinda asked if everyone had an opportunity to review the new website. Joan put a lot of work into it at no cost to the Registry. The members unanimously agreed that the website was a huge improvement. Melinda let everyone know that when items or services are purchased through the

website an automated message is sent to the Registry's email that an order was made. The buyer is sent directly to PayPal where they can use credit card, Venmo or PayPal.

Melinda will send updates from this meeting to Joan as soon as possible. Melinda has requested that the DNA for unknowns be added to the store.

Melinda requested everyone take time to review the current forms for ones to be added to the online option. For instance, the Stallion breeding form is online, but the mare one is not. Should the mare breeding form be added.

Database-The current database does allow you to enter your horses name but does not follow through or take you any further. Melinda explained that she did have one person join specifically for the database. A model horse person who planned to use the database to create pedigrees for her model horses. When I told her we were having issues, she was disappointed. I followed up by giving her the online database for curlyhorses. She was happy with that information.

Joan investigated a commercial database. The database that ICHO is currently using is a nice one but the cost difference to us as a Registry vs to ICHO as a "club" is significant. That discount was only good for a certain number of entries and once that number is reached, they would also be charged a higher price. We don't know how often the database was being used or how to collect that information. In the meantime, we are asking anyone looking for Pedigree information to contact the office and Melinda will send them a report with findings.

Melinda noted that we do have the written studbooks (1-13) online and available. A new studbook has not been created for several years. It is something we will need to consider for the future.

OPEN DISCUSSION

USDF Membership-Diane reminded everyone that on December 1st she will be applying to the USDF membership so that our members can collect points for their awards program. As a member, the ABCR will be added to their website. Diane was given the personal cell phone number to contact.

Open Discussion continued- Curly Sporthorse International-Sonja asked about CSI and the program created to bring them into the registry. Melinda had to report that sadly she only had 3 inquiries that panned out. There were a few others, but they never followed up. The issue for some was the CSI award program through the USDF. Which is why we are planning to join with hopes that it will provide an incentive to some.

New Scholarship program-

Melinda suggested that the registry look into creating a scholarship program that provides support to a person or persons that want to take their horses to different events to promote and educate folks on curly horses; such as Midwest horse fair, Breyerfest, or Equine Affaire. She noted that the finances are currently in a good place and suggested $1000 line item be added to the budget. The money would be divided by the number of requests and until gone. Eg- 2/$500 each

Motion: I move we create an Adult scholarship to support travel with horse(s) for adults wishing to promote and educate the public on the benefits of Curly horses. Moved by Melinda Martino and Seconded by Diane Mitchell. Motion carried

Melinda reminded everyone that we need to encourage folks to get involved or all the hard work we've done will simply go away. With no additional business, a motion to adjourned was made by Joan Olson and seconded by Krista Harvey. Motion carried

ABCR CURLY HORSE BREED STANDARDS

Body Conformation

-A medium size head with well-defined jaw and throatlatch

-Wide set eyes with eyelashes that curl up

-Ears that are short to medium in length with curls inside (ear hair does not totally shed out in the summer)

-A medium length neck, deep at the base of the neck where it joins the base of the shoulder

-Noticeably short back, deep through the girth

-An appearance of a long under line and the belly cut high in the flank

-Heavy boned legs and short cannon bone as compared to the forearm

-Medium withers and a flat croup with a shallow slope to the base of the tail

Curly Characteristics

Body (Fine, soft hair)

-Ringlet (can be several inches long)

-Marcel Wave (deep soft wave in the body coat)

-Crushed Velvet (soft dense pile of curls in body coat)

Mane (Extra fine hair)

-Kinky –preferable

-Wavy

-Should shed all or partial in the summer

-Split mane (hangs on both sides of neck)

CURLY CUES

Tail

-Ringlets

-Wavy

-Should shed partial at the head of the tail in the summer of some horses may shed tail completely

Fetlocks

-Curly –preferable

-Wavy

-Should shed in summer but still retain some long hairs

Hooves

-Almost perfectly round in shape

-Very hard and dense

-Proportioned to the size of the horse

Size and Weight

-Average-15 hands

-Average weight-800 to 1000 pounds

Unique Characteristics

-Curly coat can be hypoallergenic (the horsehair is round instead of flat and testing has shown the hair is closely related to mohair)

-Noticeably short, strong back

-Even-tempered disposition

-Quick pulse and respiration recovery

-Very dense bone in the legs
